

Paediatric POCUS Course

This intensive one-day, in-person course is dedicated to point-of-care ultrasound (POCUS) applications in paediatric acute and critical care. Designed for healthcare professionals in acute paediatrics, paediatric critical care, and high dependency settings, the course provides practical skills and knowledge tailored to frontline paediatric care.

Course Highlights

- Bedside ultrasound techniques for paediatric emergencies
- Hands-on scanning sessions with live models
- Interpretation of POCUS findings in acute settings
- Small-group teaching by expert faculty

21st December 2026

Venue: Academic Centre, Milton Keynes University Hospital

Course Fee: £200 per delegate, Book your place today! Email: Victoria.Edwards@mkuh.nhs.uk
